Figure 3. Difference in Likelihood of Being Searched, by Race and Type of Stop

The figure shows the percentage difference in the likelihood of Blacks being searched as compared to Whites by purpose of stop.

Figure 4. Racial Differences in the Likelihood of Search

The figure shows the percentage difference in the likelihood of Blacks being searched as compared to Whites.

Figure 5. Racial Differences in the Likelihood of Search by Gender

The figure shows the percentage difference in the likelihood of Blacks being searched as compared to Whites by gender.

Figure 6. Racial Differences in the Likelihood of Search by Gender, for Drivers Under 30

The figure shows the percentage difference in the likelihood of Blacks being searched as compared to Whites by gender for motorists under 30.

Figure 7. Search Rates by Race, Gender, and Age Group

Based on 156,529 traffic stops from 2002 through 2013, and 6,164 searches. Overall rate of search: 3.94 percent.

Black men under the age of 30 are searched at rates of about 11 percent whereas white men of that age see rates of about 4 percent, and women in general are typically below 4 percent. The figure makes clear how race, gender, and age combine to indicate where searches are most likely.

The patterns in Figure 7 are highly consistent over time. Figures 8 and 9 show the number of stops, then searches, by the four race/gender groups.

Figure 8. Number of Stops, by Race and Gender

Figure 9. Percent of Stops Resulting in a Search, by Race and Gender

The figure shows the percentage difference in the likelihood of Blacks being searched as compared to Whites by gender.

Figure 10. Number of Black and White Motorists Stopped, by Officer

Figure 11. Number of Black and White Motorists Searched, by Officer

Figure 12. Percent of White and Black Drivers Searched, by Officer

Includes 71 officers with a minimum of 50 White stops, 50 Black stops, and a search rate above the department average of 3.94. The hollow circles indicate high disparity officers. 0 officers search Whites at more than twice the rate that they search Blacks. 41 officers search Blacks at more than twice the rate that they search Whites.
