

Average Index of Jurisdictional Overlap, Hearings on Comprehensive Health Care Reform, 1947-1993

	Time Period					
Type of Hearing	1947-49	1950s	1960s	1970s	1980s	1990-93
Referral	80.6	79.6	89.6	62.4	41.1	50.7
Nonreferral	N/A	100	81.3	55.0	31.2	15.0

Note: The index ranges from 0 to 100, with a value of 100 representing perfect clarity (i.e. no jurisdictional overlap) and values approaching zero representing little clarity (i.e. considerable jurisdictional overlap).
