[Announcer]: Hear about the politicians' new game? Bashing HMO's and other health plans to trick you

into voting for them. In this game, if politicians win,

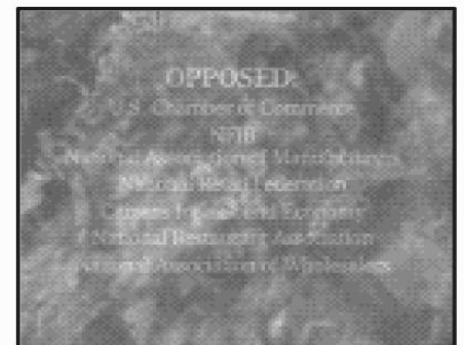

you could lose. The politicians' new laws and regulations could cause

nearly 2 million hard-working Americans to lose their health coverage.

Some game. Politicians win votes while families lose health coverage.

That's why so many groups oppose this game. They know that when

politicians play doctor, real people can get hurt. [PFB: American Association of Health Plans]
