[Announcer]: 87% of voters say it's time for Congress to pass a real patients' bill of rights.

But Big insurance is spending \$100 million to kill the legislation.

While Senator's narrowly pass a bill that supports not you and your

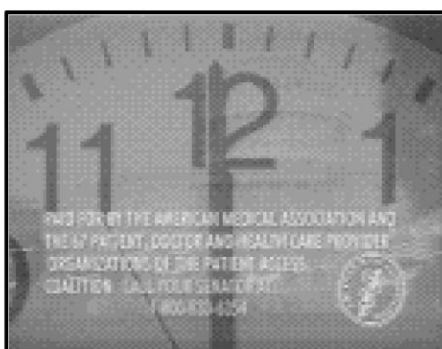

family but the Big HMO's. That's wrong. Tell your

Senator's to stand up for patients and let America's doctors make your healthcare

decisions, not HMO bureaucrats. The time is now

for the US Senate to pass a real patients' bill of rights.
