

# Don't Let Big Business Check You Off!

## Big Business TO DO List

- Find cheap labor market
- Tell everyone NAFTA will create new American jobs
- Pass NAFTA
- Move 600,000 manufacturing jobs to Mexico and Canada
- Look for even cheaper labor market
- Tell everyone PNTR will create new American jobs
- Pass PNTR for China
- Move 817,000 MORE American jobs to China

Big Business has a plan to exploit a new cheap labor market: Pass Permanent Normal Trade Relations (PNTR) status for China.

Let's take a look at the facts.

China has violated every trade agreement it has signed with the United States. China produces goods and materials in forced labor camps and pays its workers as little as 13 cents an hour.

Even worse, China violently crushes political dissent, violates human rights and ignores basic worker protections. Because of this China enjoys a \$70 billion trade surplus with the United States, and **800,000 American jobs have been eliminated.**

Incredibly, Congress is ignoring these facts and considering legislation to reward China with PNTR status. That means the U.S. would lose its ability to review China's trade status each year, and to withdraw their trade status if China continues to oppress basic human rights and threatens U.S. workers and companies with unfair competition.

Call **1-800-393-1082** today and tell your member of Congress to support fair trade and vote

# NO on PNTR for China!
