[Chan]: "For 20 years I've worked for freedom of religious belief in China. Now I see the best chance we've ever had to promote those values.

Trade between America and China is the best way to open China's borders

and to open the minds of China's leaders. Trade is a powerful

force to help express religious and democratic values. You can help bring more belief

of freedom to my people by asking your Congress to

vote for trade with China." [Announcer]: Tell Congress: support trade with China.
