[Announcer]: Our democracy: it's helped ensure peace and prosperity. If we isolate China cooperation on defense

issues will be harder. If we isolate China it undermines human rights and

environmental protection. If we isolate China it cuts us off

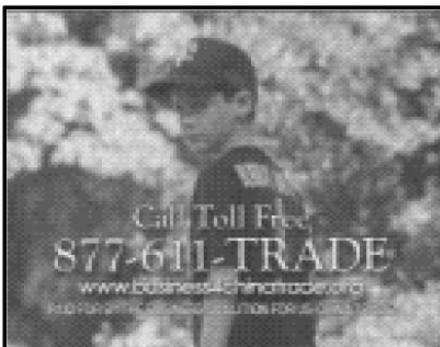

from new markets and hurts or workers and families. If your member

of Congress votes against trade, it doesn't hurt China, it isolates and hurts

us here at home. Call Congress. Tell them it's wrong

to isolate America's families. [PFB Business Coalition for US-China Trade]
