#### HOUSEVOTE 371 - HR2646: Farm Bill - Passage

October 05, 2001 - Authorize \$167 billion over ten years for farm price supports, conservation programs, food aid and rural development. Authorize \$5 billion annually through 2012 to growers of corn, wheat, soybeans, rice and cotton. Payments would be made on a countercyclical program, meaning they would increase as prices dropped. Fixed payment plans based upon acres planted and set aside for conservation would be retained from the previous farm law. Eliminate a marketing tax on sugar at a cost of \$440 million over 10 years, reduce the interest rate on sugar price support loans and authorize a payment-in-kind program that would allow growers to pay loans in sugar instead of cash. Extend a milk price support program through 2011 at a cost of \$773 million. Create several marketing assistance loan programs similar to those for other commodities, including a loan program for wool and mohair at \$164 million over 10 years and a honey loan program. Overhaul the peanut commodity program at a cost of \$3.4 billion to make it resemble other crops' arrangements more closely. End the marketing quota program and pay quota holders for the loss of crops they planted under it. Give the Agriculture secretary the authority to combat outbreaks of plant and animal diseases with emergency funds. Provide an additional \$200 million in spending authority for surplus commodity purchases. Create a Technical Assistance Specialty Crop fund to assist with barriers to fruit and vegetable trade. Authorize \$15 million annually for the life of the bill for the Senior's Farmers Market Program. Authorize \$16 billion through 2011 for soil, water and wildlife programs. Authorize \$1.4 billion for the Conservation Reserve Program through 2011, with a 39.5 million-acre enrollment cap. Authorize \$10.3 billion through 2011 for the Environmental Quality Incentive Program.

Passed 291-120: R 151-58; D 139-61 (ND 90-58, SD 49-3); I 1-1.

May 02, 2002 - Adoption of the conference report on the bill that would reauthorize federal agriculture programs for six years. It would raise mandatory and direct farm program spending by \$73.5 billion over 10 years, provide \$243 billion for food stamps and restore benefits for legal immigrants, and increase conservation spending to \$17.1 billion. After two years, the agreement would require certain goods to be labeled by country origin. It would lower the total limit on payments to individual farmers to \$360,000 and authorize a new \$1 billion dairy program for three and a half years.
