<p>Sierra Club TV :30 "Red/White/& Blue- Allard" 06/01/02 Colorado</p>	<p>Documentation</p>
<p>America. Home of the Red, White, and Blue... where we treasure the majesty of mountains and celebrate spacious skies.</p>	
<p>Unfortunately Senator Wayne Allard doesn't share our values.</p>	<p>The League of Conservation Voters gave Senator Allard a score of 13% on his environmental voting record in 2001.</p>
<p>He's voted against enforcing the environmental laws that protect us from air and water pollution...</p>	<p>On April 5, 2001, Senator Corzine offered an amendment to the Fiscal Year 2002 budget (H. Con. Res. 83). The Senate's budget for Fiscal Year 2002 reduced funding for natural resources and environmental programs by \$2.1 billion from the previous year. This funding level would fail to provide adequate funding for protection of our natural resources, air, water, oceans, coasts, parks, open spaces, wild places and our endangered and threatened species. Senator Allard voted against the Corzine amendment, which would have restored these cuts and increased overall funding by 4%.</p>
<p>And refused to hold industry responsible for polluting.</p>	<p>On December 13, 2001, Senator Christopher Bond (R-MO) offered an amendment to the Farm Bill (S. 1731). It would have allowed the President to override laws, such as the Clean Water Act, Safe Drinking Water Act and Clean Air Act, that "...would be likely to have a significant adverse economic impact on or jeopardize the safety of agricultural producers....". Senator Allard voted against tabling this anti-environmental amendment.</p>
<p>Call Senator Allard (303-220-7414). Tell him to vote to protect our country, our air and our water, for our families, for our future.</p>	<p>The Sierra Club believes that Americans should hold their elected representatives accountable by voicing their concerns about important issues such as clean air and clean</p>

	water. We expect there to be a number of upcoming environmental votes in the U.S. Senate.
